Keyboard platforms and articulating arms are available through stores. These items can be ordered by logging onto the Stores Search and Order site, or by calling **x4938** and ordering from Tom Hardy.

There are two options.

OPTION 1: Humanscale keyboard tray and arm assembly. This has a swing out left hand mouse pad and an above keyboard right hand mouse pad that can be positioned over the numeric keypad to bring the mouse closer to the keyboard. Installation by vendor is an option and the installer can also change the above keyboard mouse platform to an under tray if that is preferred.
